**EDUCATION IN THE PRINTING OFFICE.**  
The late witty Mr. Brown, (Artemus Ward)

has left, among other directions in his will, that a youth, whom he had adopted, should be sent to college; but that before being sent there, he should be put as apprentice in a printing office, "that he might ascertain how little he knew, and how important it was to learn."

This was a most sensible provision for the lad, for we can conceive of no place better calculated than a printing office to teach a boy the practical parts of an education.

Mr. Brown knew well how little is often learned at school of even the plainest subjects which all ought to know thoroughly. A great many boys of sixteen cannot write a page of note-paper without several glaring mistakes in grammar and spelling, and as to punctuation, that is a thing that not only youth, but often old people, know very little about.

A lad put to setting type makes but a bad out of it at first. With the greatest care he makes many mistakes, and it takes some time to get him to set type rapidly and correctly.

In the process of learning to "compose," as setting type is technically termed, the youth insensibly acquires the habit of spelling and punctuating correctly, and improves his grammar by constant repetitions of examples of well-constructed English.

We have often seen practical printers who had received no regular education, who nevertheless could put to the blush many who had had thousands spent upon their instruction, and who, though in college they had learned all the "logics," could not construct a decent English sentence.

In addition to this thorough instruction in what may be called the elements of education, the printer, if observant of what he is "composing," can collect in a few years a vast body of information on almost any subject; for it is astonishing to consider what an amount of knowledge of all sorts is contained in the columns of a daily paper.

Moreover, so much of a literary and scientific nature comes under view in "composing," that the young printer necessarily acquires, at least, enough of the various departments of knowledge to induce him to investigate more deeply, and the same paragraphs which excite his desire of increasing his stores of information, will direct him to the best sources from which he may derive fuller and more methodical instruction.

These facts and reasons explain why printers are generally, as a class, so well informed, and why so many men of distinction in our land began life at "the case." Indeed, next to the Law, which is the great avenue to popular distinction, we believe that the Profession of the Printer has furnished by far more men of political and literary distinction than all the rest of the professions put together.

—Nonflog Journal.

**How to go to Europe.**—For the information of those who may design to visit Europe this season, to attend the World's Fair at Paris, we clip the subjoined from our exchanges:

The Great Eastern will make seven trips from New York to Brest and back again, during the World's Fair at Paris. She leaves New York April 16th, May 9th, June 22nd, July 30th, Sept. 12th, Oct. 19th, and Nov. 26th. The single fare will be \$100 in gold from New York to Brest, and \$80 from Brest to New York. The railroad fare from Brest to Paris will be \$10 and \$20 in gold will take one to the Exhibition and back again from New York.

Americans intending to visit Europe this spring, will find abundant accommodations for the voyage out and back. Several steamship companies announce a system of excursion tickets, at rates ranging from \$180 to \$300 in gold for the round trip, giving the tourist about six weeks for a stay in Europe.

Thirteen lines of European steamers are now running regularly from New York. Of these, six issue excursion tickets. The fare on the steamers of the London and New York line is \$200 in currency to London or Brest and back—tickets available for six months; by the steamer Havana, \$250 to \$300 in currency, and back—passengers being allowed six weeks' time in Europe; by the Great Eastern, \$100 to \$140 in gold, with a reduction of \$20 to passengers returning before August; by the Bremen line, out and back, \$210 in gold; by the Autry line, out and back, \$170 in gold; by the Inman line, out and back, \$200 in gold—tickets available for twelve months.

The regular fares by the lines which do not issue excursion tickets, are as follows:—Cunard, \$150 in gold; New York and Havre (American line), \$120 in gold; New York and Havre (French line), \$160 in gold; North German Lloyd, \$125 in gold; Hamburg, \$125 in gold; National Steam Navigation Company, \$90 in gold.

**KNOW THY DESTINY.**—MADAME E. F. THORNTON, the great English Astrologist, Clairvoyant and Psychometrist, who has astonished the scientific classes of the Old World, has now located her self at Hudson, N.Y. Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a state of trance, she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychometre, guarantees to produce a life-like picture of the future husband or wife of the applicant, together with date of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can assert.—She will send, when desired, a certified certificate, or written guarantee, that the picture is what it purports to be. By enclosing a small lock of hair, and stating place of birth, age, disposition and complexion, and enclosing fifty cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. All communications made confidential. Address, in confidence, Madame E. F. Thornton, P. O. Box 223, Hudson, N. Y. mh 22-1y

**A YOUNG LADY** returning to her country home, after a sojourn of a few months in the city, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the CIRCASSIAN BALM, and considered it an invaluable acquisition to any lady's toilet. By its use any lady or gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface as nature intended it should be, clear, soft, smooth and beautiful.—Price \$1, sent by Mail or Express, on receipt of an order by W. L. CLARK & CO., Chemists, No. 3, West Fayette st., Syracuse, N. Y. The only American Agents for the sale of the same. mh 12-1y

**WONDERFUL, BUT TRUE!**—MADAME REMINGTON, the world-renowned Astrologist and Somnambulist Clairvoyant, while in a clairvoyant state, delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychometre, guarantees to produce a perfect and life-like picture of the future husband or wife of the applicant, with date of marriage, occupation, leading traits of character, &c. This is no imposture, as testimonials without number can assert. By stating place of birth, age, disposition, color of eyes and hair, and enclosing fifty cents, and stamped envelope addressed to yourself, you will receive the picture by return mail, together with desired information. In confidence, MADAME REMINGTON, P. O. Box 21, West Troy, New York. mh 12-1y

**FERTILIZERS, &c.**  
**GUANO AND FERTILIZERS.**

The subscriber has on hand a full assortment of the most approved MANURES, which he is prepared to sell in any quantity desired, at the lowest market rates.

As the prices are uniform the farmer can obtain his supplies as well by correspondence as through his dealer to purchase in person.

**PERUVIAN GUANO.** of the best quality. Bolivian Guano. This article comes from the same section as Peruvian, which it closely resembles in texture and appearance. It is much richer in Phosphate, but has less Ammonia. For stiff soils or phosphate it will answer quite as well as Peruvian, and it costs but two thirds the price of that article.

**Mexican Guano.** of four grades. Ground Bones. Whitelock's Cerealizer. The high reputation borne by this article as the most effective and reliable of products for the farmer, and contains all the best qualities of Peruvian Guano and Ground Bones.
